SUMMARY DESCRIPTION OF BUSINESS

What is Our Business?

Coniagas Battery Metals Inc. is a Canadian junior mining company focused on nickel, copper and cobalt and platinum group metals in Québec. Coniagas' strategy is to create value for shareholders through the development of its mineral properties, with the intention to develop Coniagas into a critical metals supplier to the electric vehicle (EV) market.

Graal project near Saguenay, Quebec

At its 100% owned Graal project near Saguenay, Quebec, Coniagas has conducted successful exploration involving geophysics as well as shallow drilling that hit mineralization in almost every hole. It has confirmed an open-pit deposit model at Graal along a 6 km strike length of high-grade nickel and copper with cobalt, platinum and palladium byproducts. The Company plans in the near-term to conduct additional drilling leading to the production of a resource report that is compliant with National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* ("NI 43-101"), metallurgical testing and consultations with First Nations. The Graal project and immediate work plan are outlined in detail in the "NI 43-101 Technical Report Graal Nickel & Copper Project, Saguenay-Lac-St-Jean, Quebec, Canada" dated January 17, 2024. The report is available along with other information at the Company's website <https://coniagas.com/>

Developments

Coniagas is concentrating its multi-year roadmap on turning the Graal nickel-copper-cobalt deposit in northern Quebec into a production-ready, critical-battery-metals project. The key elements of its plan for the next few years are:

1. **Drilling campaign (2025-2026)** – The Company intends to launch a drill program, expanding the known 6 km strike and targeting deeper, higher-grade zones. The goal is to increase the size of the mineralized envelope and generate enough data for a maiden NI 43-101 resource estimate.
2. **NI 43-101 resource estimate** – Once the expanded drill data are in hand, Coniagas plans to compile a formal resource report, which is a prerequisite for any future financing or development steps.
3. **Metallurgical testing and processing-facility design** – Parallel to drilling, the firm will conduct extensive metallurgical work to confirm recoveries for nickel, copper, cobalt and the by-product PGMs. It is also planning a dedicated processing plant in Quebec that will employ its proprietary "Re-2Ox" closed-loop hydrometallurgical technology, allowing metal extraction without discharge or smelting.
4. **Stakeholder engagement and permitting** – Continued consultations with First Nations groups and the pursuit of the necessary provincial and federal permits remain integral to the timeline, ensuring the open-pit model can move toward construction.

Taken together, Coniagas' near-term agenda (2025-2026) is to expand and delineate the Graal deposit, produce a compliant resource estimate, validate processing methods, and secure the financing needed to advance toward a future mine-ready project that could supply nickel, copper, cobalt and platinum-group metals for the North-American battery supply chain.

Further, recent developments of the Company include:

- On November 11, 2025, The Company announced that it is launching an airborne HTDEM survey covering the entire Graal property.
- On November 7, 2025, the Company granted stock options to directors, officers and consultants to purchase up to 2,400,000 common shares. 1,300,000 options can be exercised at \$0.10 and 1,100,000 options can be exercised at \$0.075 for three years.
- On September 7, 2025, the Company announced that it has received its authorization of impact-causing exploration work (ATI) from Quebec's Ministère des Ressources naturelles et des Forêts (MRNF), clearing the way for diamond drilling to commence at the Graal property.
- On August 19, 2025, the Company announced its cooperation with Université du Québec à Chicoutimi (UQAC) to investigate metallogenic processes responsible for nickel-copper sulfide formation at the Company's Graal Property, located within the Lac-Saint-Jean Anorthositic Suite (SALSJ). Laurentia Exploration continues to manage exploration activities while advancing the permitting process.
- On May 21, 2025, the Company provided an update on the ongoing exploration activities at the Graal property. Laurentia Exploration crew has been mobilized for prospecting on the southern extent of the property.

The program consists of confirming access to both the southern portion of the property which was logged approximately 15 years ago as well as checking access to the more northern and central areas where drilling is planned for later this year once permits are received (see Discovery, MHY and Gravi Zones on map below). The southern area, around the Nourricier A showing (see map below), is known to host the extension of the electromagnetic conductor corresponding to Graal main showings (MHY-Gravity-Discovery). This southern extension is historically defined by the MaxMin ground survey (GM56024). Current prospecting in this area, using a beep mat on surface and sampling outcrop, aims to confirm those historical conductors. The data recovered will further develop our understanding of the larger property as well as allow more effective planning of the next stage of drilling as we propose to further define the shallower mineralization before drilling deeper to extend the known mineralization to depth.

- On February 2, 2025, the Company engaged the services of Laurentia Exploration to design and manage ongoing exploration activities at the Graal property, highlighting the potential of this strategically located asset near Saguenay-Lac St. Jean, Quebec.
- On September 29, 2024, the Company announced that it closed the final tranche of its previously announced non-brokered private placement of units. Coniagas issued a total of 4,059,433 units in the private placement for gross proceeds of approximately \$487,132. Of the 4,059,433 units, a total of 1,713,666 were "flow-through" units, representing gross "flow-through" proceeds of approximately \$205,639. Each unit was comprised of one Common Share and one-half of a Common Share purchase warrant. Each full warrant entitles the holder thereof to purchase one additional Common Share at a price of \$0.15 for five years from the date of issuance. In connection with the private placement, Coniagas paid cash finder's fees in an aggregate amount of \$3,709.99, being 7% of the proceeds from subscriptions by subscribers identified by finders, and issued an aggregate of 30,916 warrants to finders, representing 7% of the number of units issued to subscribers identified by them. Each of the finder's warrants will entitle its holder to purchase one

additional Common Share at a price of \$0.15 for two years from the date of issuance. Coniagas also issued an aggregate of 22,083 Common Share to certain finders, representing an amount equal to 5% of the number of units issued to subscribers identified by them.

Description of Common Shares

The holders of Common Shares are entitled to: (i) receive dividends as and when declared by the board of directors of the Company, out of the moneys properly applicable to the payment of dividends, in such amount and in such form as the board of directors may from time to time determine; (ii) in the event of the dissolution, liquidation or winding-up of the Company, whether voluntary or involuntary, or any other distribution of the assets of the Company among its shareholders for the purpose of winding-up its affairs, receive the remaining property and assets of the Company; and (iii) receive notice of and to attend all meeting of the shareholders of the Company and to have one vote for each Common Share held at all meetings of the shareholders of the Company, except for meetings at which only holders of another specified class or series of shares of the Company are entitled to vote separately as a class or series.

Material Facts

There are no material facts about the securities being distributed that have not been disclosed in this Offering Document or in any other document filed on the Company's profile on the SEDAR+ website at www.sedarplus.ca in the 12 months preceding the date of this Offering Document.

The most recent financial statements of the Company included a going-concern note. Management is aware, in making its going concern assessment, of recurring losses, on-going negative cash flow and an ongoing dependence on financing activities that may cast significant doubt on the Company's ability to continue as a going concern. The Company is in the process of exploring its mineral properties and has not yet determined whether the properties contain reserves that are economically recoverable. The business of mining and exploration involves a high degree of risk and there can be no assurance that the Company's exploration programs will result in profitable mining operations. The Company's continued existence is dependent upon the discovery of economically recoverable reserves and resources, securing and maintaining title and beneficial interest in its properties, making the required payments pursuant to mineral property option agreements and/or securing additional financing; all of which are uncertain.

On November 27, 2025, the Company entered into an agreement with the Research Capital Corporation (the "**RCC**") pursuant to which RCC has agreed to provide financial advisory services to the Company (the "**Advisory Agreement**"). The Advisory Agreement has a term of 60 days and in consideration of the services rendered, the Company has agreed to pay RCC a cash fee of \$25,000 (plus applicable taxes) and, subject to TSX-V approval, to issue the RCC an aggregate of 330,000 Common Shares (the "**Advisory Shares**"). The Advisory Shares shall be subject to a hold period expiring four months and a day from the date of issuance.

What are the business objectives that we expect to accomplish using the available funds?

The net proceeds of the offering will be used for the following business objectives over the next 12 months:

- Accelerating further exploration activities of our Graal property;
- Cover general and administrative expenses to sustain the Company's operations for the next 12 months; and
- Reduction of certain liabilities while maintaining unallocated working capital for general purposes going forward.

USE OF AVAILABLE FUNDS

What will our available funds be upon the closing of the offering?

		Assuming Maximum Offering
A.	Amount to be raised by this Offering	\$1,117,855.25
B.	Selling commissions and fees ⁽¹⁾	\$82,428
C.	Estimated offering costs (e.g., legal, accounting, audit)	\$25,000
D.	Net proceeds of offering: $D = A - (B+C)$	\$1,003,426.83
E.	Working capital as at most recent month end (deficiency) ⁽²⁾	(\$162,608)
F.	Additional sources of funding	-
G.	Total available funds: $G = D+E+F$	\$840,818

Notes:

- (1) Upon closing, finders' fees of up to 8% cash and 8% Finder's Warrants may be issued. Commencing on the 62nd day after issuance, each Finder's Warrant entitles the holder thereof to purchase one Common Share of at a price of \$0.06/share for a period of 5 years following the date of issuance.
- (2) Working capital = current assets minus current liabilities as at November 30, 2025.

The Company has experienced a decrease in its working capital since the fiscal year ended December 31, 2024 as a result of financing its ongoing operations and having not raised any additional funds during such period.

How will we use the available funds?

The Company intends to use the net proceeds from this Offering to fund the advancement of its Graal property and for general corporate and working capital purposes as follows:

Description of intended use of available funds listed in order of priority ⁽¹⁾⁽²⁾⁽³⁾	Assuming Maximum Offering
Exploration expenses Graal Property	\$300,000
Marketing and advisory	\$150,000
General and administrative	\$350,000
Unallocated working capital	\$40,818
Total	\$840,818

Notes:

- (1) The available funds will not be paid to insiders, associates or affiliates of the Company, except for normal course salaries.
- (2) The most recent financial statements of the Company included a going-concern note. This Offering is intended to permit the Company to continue its operations, with the goal of advancing its exploration activities and is not expected to affect the decision to include a going-concern note in the next annual financial statements of the Company.
- (3) The above noted allocation and anticipated timing represents the Company's current intentions with respect to its use of proceeds based on current knowledge, planning and expectations of management of the Company. Although the Company intends to expend the proceeds from the Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Company's ability to execute on its business plan.

How have we used the other funds we have raised in the past 12 months?

On September 29, 2024, the Company closed a non-brokered private placement ("**September 2024 Offering**") and issued an aggregate of 4,059,433 units (at a price of \$0.12 per unit) for gross proceeds of \$487,132. The net proceeds of the September 2024 Offering were used for exploration activities at the Graal project, paying down certain liabilities and maintaining working capital. The following table summarizes variances in expenditure since the September 2024 Offering. Besides any variance presented below, the Company has spent the funds raised consistent with their intended use.

Date of Financing and Funds Raised	Use of Funds	Variance	Impact of Variances
September 29, 2024 \$487,132	Exploration and Evaluation Expenditures	Nil	Nil
	General and Administrative Expenses (including marketing and investor relations)	Nil	Nil
	Cash for Working Capital	Nil	Nil
	Unallocated Working Capital	Nil	Nil

FEES AND COMMISSIONS

Who are the dealers or finders that we have engaged in connection with this offering, if any, and what are their fees?

In connection with the Offering, the Company has entered into a Finder's Fee Agreement with RCC, pursuant to which the Company has agreed to pay RCC a cash commission equal to 8.0% of the gross proceeds raised under the Offering and to issue to RCC such number of non-transferrable Common Share purchase warrants (the "**Finder Warrants**") as equals 8.0% of the number of Units sold under the Offering. Commencing on the 62nd day after issuance, each Finder's Warrant entitles the holder thereof to purchase one Common Share of at a price of \$0.065/share for a period of 5 years following the date of issuance.

PURCHASER'S RIGHTS

Rights of Action in the Event of a Misrepresentation

If there is a misrepresentation in this offering document, you have a right:
